

# System Of A Down, Want Me To Try!

I need not fear the love  
You love to love the fear  
I never want to be alone  
I've forgotten too  
The road keeps moving the clouds  
The clouds become unreal  
I guess I'll always be at home  
Do you want me to try?  
Directing your night

An exit lights the sky  
The sky becomes complete  
Traveling hearts divine the throne  
I've forgotten too  
Friction, lines, bumps

the highway song complete  
the signs are all turning right

Do you want me to try?  
Directing your night  
Want me to try  
Directing your night

The furious forms of life  
Our days are never coming back  
The cannons of our time  
Our days are never coming back
