# T.I., Bounce Like This

[Verse]

Chinchilla to the floor

Ciggarella full of dro

White Benz double doors

I can change color though

Blue Ferrari red Bent

Black truck on 24's

Several cheverlots on 20 inches maybe more

Used to wish for better days

Now I wish for never more

I can go 'bout anything

Stick my dick in every hoe

Grand hustling on everything

PSC in every store

Selling everything from rubber bands to leather coats

Swear to god I'd never change

Other niggas never know

T.I.P. ain't never been a lame jigalow since '84

Blessed wit astonishing ability to pull a hoe

Fuck her so good make her think this dick was full of mo

Pussy so good but I love the way she suck it slow

Her motto you don't swallow what you sucking for?

My motto you ain't balling what you hustling for? These vvs's let off such a glow to let the busters no

## [Chorus:]

Hey hey

Hey shawty bounce like this just bounce

Let me see you bounce like this

Hey hey

Tell the bitch to bounce like this

Just bend it over and bounce like this

#### [Verse]

I give you 30 seconds show me what you got - could you?

Bend it over for me drop it like it's hot - could you?

Wiggle your titties a little lift your top get ya to

Bust it open show your panties and your ass for me

Actually I was thinking you, Kim and Daphanee

In the back licking the bottom half of me

Answer me first no then saying no is blast from me

Me I'm pussy pumper number 1 you can ask for me

I know how you dance for me

Say you had plans for me

Save the conversation

Get your partner out the pants for me

Damn honey you'd be a fool if you ran from me

You ain't fucking with another dummy I'm the man honey

I'm trying give to you to make you stand funny

Throw that pussy right and maybe you can get a grand from me

Ha picture pimping giving you some money

Not a one damn dime but your ass is fine
