(feat. Jamie Foxx)

[Spoken:]

Whats happening man this T.I.P. you know  
I like to dedicate this song to anybody who every lost somebody,  
to the grave, to the streets, to the jail cell,  
I done been in situations where I done had to Cope with all three you know what I'm saying,  
I feel like the only thing I ain't done yet is die you know...  
But it ain't how I live when I'm here it's how I live when I leave ya dig

[Chorus:]

Life's up and downs they come and go ...but when I die I hope I live in the sky...All my folks who  
Ain't alive I hope they live in the sky.. pray to God when I die that I live in the sky ..It's true what  
Goes around comes back you know.. So when I die I hope I live in the sky.. All my folk who ain't su  
They live in the sky... Tell God I wanna fly and let me live in the sky...

[Verse 1:]

My cousin Toot ain't have to die right in front of his son and his wife  
He lost his life struggling over a gun  
Give a damn what he done that my motherfucking folk and I love that nigga 'til death no motherfuck  
I can feel my eyes feeling the Lord is my witness  
If I catch em Imma kill em I made it my business  
Back in the day you stayed in my business taught I didn't have to incorporate yay in my business  
Coincidentally that's why today you not wit me  
My cousin died ova some yay and I miss em  
Plus he had his family out let's say she the eye witness  
But her boyfriend did the shooting judge gave her life sentence  
I heard that now I'm dressed up in all black  
Shot up the whole apartments and still and brought back  
The best friend I had in Jamel I lost that  
I guess your death was a lesson in life it taught me that

[Repeat chorus]

[Verse 2:]

Who ever seen a nigga go to jail sleep 'til day two  
Well thats how sick I was when Jay blew  
Found out the hard way  
That wasn't powder  
They was tooting  
Over-dosed on heroin died at 22  
If you ain't heard about  
Daughter she smile just like you  
So cute even resorts to violence like you  
You know you ya baby mama  
Loose but ha what can you do  
And I got 4 myself yep it's been a few  
Now everything I do is for  
King, messiah, deyjah, demani  
Lord they all I got so please don't take em from me  
From me standing in the  
Trap wit coring and sir kap  
Laughing at the niggas who serve with no strap  
Tell them niggas man yall  
Tripping wit no map  
Ya robbing ask to borrow my pistol ain't no hap  
Me, you, the crew just fell out ova  
Dough and a little crack  
Never could apologize 'cause you died that's why they saying..

[Repeat chorus]

[Verse 3:]

I bet you niggas thinking that I living it up

'Til you see polices laughing as they picking me up  
Went from seeing how many bitches i can fit in the truck  
To 3 hots and a cot is you kidding or what fuck how  
Many millions I got nigga so what if I'm hot when I got prices on my head  
Feds rushing my spot a million  
Haters wont me dead force to carry me gat  
But you a seven time felon what you doing with that  
It's a catch  
22 either you lose or lose  
That's the way the game structured for real niggas to suffer  
And I ain't never  
Been a busta always stood on my feet  
Like a man prepared to take what ever coming for me  
A pussy nigga  
Or polices wit a warrant for me  
I'm a "G" prepared to die for whats important to me  
Look anybody in the  
Eye who say they want it wit me  
Put up the house and bet the odds if coming from me  
OG's say I need to  
Learn and be patient  
You telling me wit these seven years of probation  
Pistol charges and a host of  
Other open cases  
If niggas only knew the kind of time I was facing  
I tried to keep to myself but  
Sometime I couldn't take it  
Got 4 kids wit smiles on they faces  
Mean more to me than my crown and my bracelet  
Take that away from me and my life is butt naked

[Repeat chorus]
