

T.Love, The Best

I'm just another lonely boy
I hate the news, I've heard today
I'm just another lonely man
On our lonely planet
I wanna be independent
I wanna be independent for one day
Love is the answer
For all the bad questions in my head
People are making new wars
Blood instead of conversation
People are making new atomic
Global hateship

Ref:

But... you're the best
You're the best girl
You're the best
You're the best in my world
I'm just another Romeo
One of the city faces
You're the new Juliet
Under the sky scrapers
We wanna feel the heat
Between the neon lights tonight
Love is the answer
For lonely hearts in the modern life
People are making bad comfort
Full of discrimination
People are making new global
Human vacation

Ref:

But... you're the best
