

T-Pain, Dreaming

Mama always said that she knew this day would come
She said just be steady and get ready, don't let that pressure bother you none
Oh you can't put it in words, but you know what you deserve
Everything that life has taught you up to now
So you can get steady and get ready and know you'll make it through somehow

Scream out oh this is what I've been dreaming of
Oh just when you thought you've seen enough
It all comes back around
Oh it all comes back like
This is what I've been dreaming of
This is what I've been dreaming of
This is what I've been dreaming of
It all comes back around
This is what I've been dreaming of
Oh, this is what I've been dreaming of

Look at where you are and just look back at where you used to be
One step at a time, we just got started that's not far enough for me
Ain't nothing wrong with being stronger than I was yesterday
I'm in this for the long trip, Come along with get this blessing bae
We gon be throwin away them excuses
Get up get up let's do this
Motivatin' the nation I'm gon use it
You made it through it so I know you can't lose it
Look at how far we've come
That pressure didn't bother me none
We're forever young
Hands up to the sun

Oh this is what I've been dreaming of
Oh, just when you thought you've seen enough
It all comes back around
Oh it all comes back like
This is what I've been dreaming of, oh
This is what I've been dreaming of, oh
This is what I've been dreaming of, oh
It all comes back around
This is what I've been dreaming of
Oh, this is what I've been dreaming of

Mama always said that she knew this day would come
She said just get steady and get ready, don't let that pressure bother you none
