

# T.Rex, Beltane Walk

Trucking down by the roadside  
Met a man with a starhide  
He said boy wouldn't you like to look  
But could it give me love  
Give me little love from her heart  
Bopping down by the whirlpool  
I met a girl she was god's tool  
I said girl wouldn't you like to rock  
But could it give me love  
Give me little love from god's heart  
Walking down by the westwind  
I met a boy he was my friend  
I said boy we could sing it too  
And we do  
Give us love  
Give us little love  
Give us little love from your hearts  
And then we'll walk.
