

Tad Dreis, Give It Away If I Can

Bobby's in the bathroom with his apricot scrub
I'm in my bedroom just debating what to dub
You give it away if you can
Give it away if you can

Bobby's with a woman, got his radio low
Sounds like it's Schumann, guess it's time for me to go
And give it away if I can
Give it away if I can

Then I'm out on the block
Driving and I'm looking for a place to stand
Where my patron will walk
And let me give it away if I can
Give it away if I can

Jimmy's is a sandwich shop I like to stand by
Every nickel out of there it's got a greasy shine
I stow em away in a can
Stow em away in a can

Jimmy's crowd is generous and just a little drunk
I give em what they want and sell my tapes out of my trunk
I give em whatever I can
Give em whatever I can

Then I'm out on the block
Driving and I'm looking for a place to stand
Where my patron will walk
And let me give it away if I can
Give it away if I can

Andy's is a pub that has these really big TVs
Any way you're facing you can watch a game or three
I get em away if I can
Yeah I draw em away if I can

Andy's is the kind of place I don't go to myself
I never feel appreciated by their clientele
But I give it away if I can
Give it away if I can

Then I'm out on the block
Driving and I'm looking for a place to stand
Where my patron will walk
And let me give it away if I can
Give it away if I can

Driving home I dream of how a spotlight would feel
Can't wait for Friday night when I can do this thing for real
And give it away if I can
Give it away if I can
