

# Take 5, Sunrise Goodbye

You and I got so tired of getting by  
Slow burn, wrong turn, never seeing eye to eye  
With every word unsaid, humming in our heads  
Waiting till the light turned red at

Chorus:

Sunrise goodbye when she goes away  
She ain't coming back for awhile  
I know the things I should have done

Long time, thin line, love and hate  
Night walls, cracks crawling  
With the memories I'll never shake

Pre-Chorus:

We didn't have a chance, we didn't have a dime  
I waited till you crossed that line at

(Chorus)

(Solo)

(Pre-Chorus)
