

Take That, Circus

Silence please 'cuz i've got something to say
And I'm going round in circles every day
The more I shout the more I hesitate
Now that you're gone
Now that you're gone
Stand up please til I'm done losing my mind
And I've thanked you all just one too many times
The more we fall the harder we must climb
Now that you're gone
Now that you're gone
Cuz everybody loves a circus show
But I'm the only clown you'll ever know
And now you can applaud my best mistake
I love you was too many words to say .. to say
Silence please cuz I've got something to say
And before the music takes you all away
I never thought I'd leave it all so late
Now that you're gone
Oh you're gone

Yeah, everybody loves a circus show
But I'm the only clown you'll ever know
And now you can applaud my best mistake
I love you was too many words to say
I love you was too many words to say .. to say
I never thought I'd leave it all so late
Now that you're gone
Oh you're gone
Yeah, everybody loves a circus show
But I'm the only clown you'll ever know
And now you can applaud my best mistake
I love you was too many words to say
I love you was too many words to say .. to say
