

Take That, You

It's not a spark that gives me light
It's not the days I'm up all night
It's not a story I have read
Or a picture in my head
It's not the world that pulls me through
It wasn't a question before I knew
It's just an answer here by my side
I found it out just in time
It's you. Yeah
It's you. It's you
Give me your hurt if you're feeling pain
Tell me your secrets I keep them safe
Give me your love mixed up with sin
Every part of every thing
It's you. oh yeah
It's you. It's you
From now till the end. From now till the end. From now till the end.
My friend.
It's a moment of glory
My one and only
It's you. oh yeah
It's you. It's you. It's you. It's you. It's you. It's you. It's you. It's you.
Just you. Yeah. It's you. It's you. Just you. Yeah. It's you.
