

Taking Back Sunday, Lost And Found

we were only 15, i let her go,
like paper airplanes, how can i explain,
that i'm lost without you around,
well if i never lost you,
i wouldn't have to find you over and over (over and over)
you're the one that i always wanted
the one that i just can't live without,
no one understands the meaning of your eyes
and how i feel burning deep inside,
well if i never lost you,
i wouldn't have to find you all over and over (over and over)
you're the one that i always wanted,
the one that i just can't live without.
get the fliers up, have you seen the girl
with my heart on her sweater
get the fliers up, have you seen the girl
with my heart on her sweater
with my heart on her sweater,
send her round my way
and i'm sending you to stay.
she's my only star,
tell me where you are, where you are,
remember all these times apart,
bring you back to me
embrace me and make me sure
embrace me and make me secure,
you're lost and found, you're lost and found
you're lost and found, you're lost and found
you're lost and found.
