acted visionaries too dig my people they acted the ryhtms pulling there minds  
was one and move move move universe earth spirit firing the soils to destroy  
the evil un image cleanse the waste from the cold lands till the cosmos was  
whole again and the worlds had become nude

[Older man]

3:30 in the morning with not a sole in sight we sat four deep at a traffic light  
Talking about how dumb and brainwashed how dumb some of our brothers and  
sisters are while we wait for a green light to tell us when to go.

[Applause]
