

Talisman, Love Will Come Again

There's someone cryin alone again
Involuntary tears fall, sans the reason
The final hour just keeps reviving
No hope 2 warm your heart from the freezin'

The old cliché passed from time 2 time
Acknowledge these words 2 all the wise

(Chorus:)
Love will come again
When u least expect it, love comes tumbling in
Love will come again
There's no need 4 searching, u'll find your love again

It's never easy, & so i'm told
Unnecessary visions filled with anger
U must release it, despite the honour
In hope that u will free yourself from the danger

The old cliché passed from time 2 time
Acknowledge these words 2 all the wise

(Chorus)

(Solo)
