

# Tamar Braxton, I'm Over You

You told me you would love me forever  
You told me you would always do me right, oh  
When you said that you had to leave I thought I would die  
When I didn't have you right by my side  
Now I'm Over You

1 - Now I'm over You, I knew I would get over you  
No matter how long it takes  
Now I'm over you, I knew I would get over you  
I wanna thank you for walkin' out my life

Remember when we made love at night, hmm, hmm, hmm  
Remember when you kissed and held me tight, oh ye-yea-yeah  
Remember when you promised that I'll never cry  
You know I cried myself to sleep every night

That's why I'm over you, oh

Repeat 1

What about my feelings?  
What about my pride?  
What about my heart I gave to you?  
What about the years I was blind.  
What what about the times I picked you up when you were down  
But I guess it don't mean the same to you  
That's why I can't get over you, whoa

Repeat 1 (2x)

For getting me over you, oh...
