

# Tamia, Tamia

Time after time when I'm feeling low something inside of me lets  
me know it's alright loves on my side.  
When the world seems a lonely I've got a dream that won't leave a  
trace of the mood I just think of you and baby I know

Chorus

I've got a real thing here by my side someone  
Someone who needs me holding me tight  
and these special feelings won't ever fade  
(cause your the world to me)  
You put a move on my heart

Baby our loves like a melody play it for us in the sweetest key, you  
can find the music of life.  
And when we touch there's the warmest glow heated with passion  
only heaven knows is true.  
I just think of you and baby I know

I've got a real thing here by my side someone  
Someone who needs me holding me tight  
and these special feelings time can't erase  
cause your the world to me  
you put a move on my heart

I've got a real love yes I do and your someone baby, someone baby  
who needs a true love and these special feelings won't ever fade  
Baby believe me this is't dreaming sugar  
I knew I knew from the start you put a move on me  
oh what you do to my heart

Baby can't you see you and I were meant to be hold me  
hold me baby  
Can't you see that I'll love you till the end of time love me

Chorus
