

Tammany Hall NYC, Summer Song

summer's always burning on the beach beside my brothers,
summer's always sitting out to eat while at my mother's.
summer always breaks for G&Ts.
summer's always snaggin' on a rock fishing for "keepers,"
summer's always louder than the city with its peepers.
summer always find a girl for me.
summer with my legs too white
summer with trunks too tight
summer's insecurities
smile with me.
summer's here and we'll agree, by and by,
with the summer sunlight in our eyes,
love won't find us if we hide.
love will find us when we try.
summer's always wishing for and a.c., not a fan.
summer's always standing on the street without a plan.
summer's always walking home with you.
summer always means no flow.
summer's got them free rock shows!
summer gives me hope and makes it new.
smile with me.
summer's here and we'll agree, by and by,
with the summer sunlight in our eyes,
love won't find us if we hide.
love will find us when we try.
summer always lets me love again.
summer lets me know i've got real friends.
summer gives me hope and makes it new.
smile with me.
summer's here and we'll agree, by and by,
with the summer sunlight in our eyes,
love won't find us if we hide.
love will find us when we try.
smile with me.
summer's here and we'll agree, by and by,
with the summer sunlight in our eyes,
love won't find us if we hide.
love will find us when we try.
