

# Tammy Trent, Hes Right There

It's not hard to read you, it's so easy  
It's like I can read your mind  
In fact empty expression on your face  
It shows what's going on inside  
You've got lots of questions  
And the answer is just like it was before  
He is waiting on the sideline  
When you realize you just can't take anymore

Everything you need you know He's right there  
All ya gotta do is say just one prayer  
Won't you take this shot  
Just give it what you got  
And you never have to worry  
'Cause He's right there

Everything you need you know He's right there  
All you got to do is say just one prayer  
Won't you let Him be  
The One to set you free  
And you never have to fear  
Because He's right there

I can't understand it, what you waiting for  
You tried so many things  
And nothing's really helped you  
Instead it's getting harder now it seems  
It doesn't even matter  
With one touch of His hand all is passed away  
You're a new creation  
And you're looking at a brand new day  
Brand new day
