

Tammy Wynette, Baby Come Home

Oh baby come home baby come home oh baby come home please come on home
I see your picture on every wall then I realize that you're not here at all
Come on home now baby come home
Well I miss you so much come one home come on home
I love you so much come on home

All of these years were not all bad cause I'm so lonely I feel so sad
Oh won't you come back baby come back to me and I hope that you still love me
Come on home now please come on home
Well I miss you so much...
[guitar]
Well all of those years...
I love you so much come on home I love you so much come on home
