

Tammy Wynette, He Knows All The Ways To Love

He gives me love I thought I'd never find
treats me like a baby all the time
He shows affections in so many ways
and it fills my heart with love each day
He's not like a lot of men I know
take me with him everywhere he goes
I feel like a woman by his side
he loves me and he knows I'm satisfied
He knows all the ways to love me
he knows how to kiss and hold me
And he knows exactly how much love
it takes to please me
Happiness is growing all the time
everyday he tells me that he's mine
No other men could take place of him
He knows all the ways to love and keep me loving him
He knows all the ways to love me...
He knows all the ways to love and keep me loving him
