

Tammy Wynette, Kiss Away

Kiss away kiss away guess that's all that's left to say
Please come back and kiss these tears away
Smile again let me smile again make this life worth live again
Please come back and kiss these tears away
Only you can change these sad and blue days only you can make them I-love-you days
Kiss away kiss away still there's nothing left to say
Please come back and kiss these tears away
Only you can change...
