

Tammy Wynette, Listen Spot

A conversation caught my ear I wish I hadn't heard
My little boy said listen spot but don't you bark a word
Daddy's got a girl friend but he can't let mommy know
And night spot is when he's not here I bet that's where he goes
But listen spot I saw him wash the lipstick from his shirt
Then he told mom the car broke down and it was grease and dirt
But only lips can make red prints shake like an engine's blow
But listen spot that can't tell mom he don't want her to know
[steel]
So listen spot don't even bark it's time we got to sleep
We said our prayers and we prayed hard for daddy not to cheat
Let's play like it's a bond we found and there it is tonight
But listen spot don't dig it up for everyone with cry
