

Tammy Wynette, Take Me Home And Love Me

Take me home again tonight and love me
Cause there's no other place on earth I'd rather be
All my life I've never been this much in love with any man
And God knows I've been needin' here so long
The places where we always go they're fine with me but don't you know
That I'd rather be with you at home
So darling take me home again tonight and love me
Cause there's no other place on earth I'd rather be
You're everything I ever want to live for can't you see
Let's go home again tonight so you can love me
Take me home again tonight...
