

# Tammy Wynette, Take Me Home And Love Me

Take me home again tonight and love me  
Cause there's no other place on earth I'd rather be  
All my life I've never been this much in love with any man  
And God knows I've been needin' here so long  
The places where we always go they're fine with me but don't you know  
That I'd rather be with you at home  
So darling take me home again tonight and love me  
Cause there's no other place on earth I'd rather be  
You're everything I ever want to live for can't you see  
Let's go home again tonight so you can love me  
Take me home again tonight...
