

Tamyra Gray, Star

The mystery of trying
To make it happen
Struggling just to make ends meet
You need a new change of space, a new direction
Cuz this whole thing is so confusing to me

I know you got
Dirty hands from a dirty job
Weight of the world heavy on your heart
You got the power, won't you play the part?
Baby just believe that you're a...

(Chorus)

Star
Whether you know it or not
Gotta make the most of what you got
Never stop and don't ever give up
Star
You're a star
Star
Ohhhh oh
You're a star

There ain't no need for you to look any further
You got it all in the palm of your hand
Everything that you conceive
Can be yours, not just a dream
As the cards unfold just remember what you were told

I know you got
Dirty hands from a dirty job
Weight of the world heavy on your heart
You got the power, won't you play the part?
Baby just believe that you're a...

(Chorus)

Go ahead and live your life
You gotta let it shine

I know you got
Dirty hands from a dirty job
Weight of the world heavy on your heart
You got the power, won't you play the part?
Baby just believe that you're a...

(Chorus)

Hey yeah yeah
Oh oh
