

Tank, I Love You

Well, Well

Come on everybody wave ya hands if you feel me

I know we got some love'n in the building

Ohhh

Everybody feel me say.....

[Verse]

Its been a long time commin, but a change is bound to come. Some how I knew i'd lose you.....cau

[Bridge]

I never ever meant to waste your time

(I want you to know)

Everytime I said I love you it wasn't no lie

(I want you to know)

That I miss living, That's a cold feeling, Without you in my life that's a slow killing.

But I know better, you deserve better, and through whatever,

Forever I.....

[Chorus]

I love you

If this is the end and we don't talk again let me say

That I love you

Somehow I went wrong, hope you're hearing this song, let me say

That im sorry for not being the man I promised i'd always be

But I love you

And that's just the real, hope you still feel it comming from me.

[Verse 2]

Its been a long time comming up

And now everybody knows my name.

Seems i've traded in my woman, for this fortune and fame.

The times she really needed me, and her faith was running low, I took time to please everyone else

[Bridge]

I never ever meant to waste your time

(I want you to know)

Everytime I said I love you it wasn't no lie

(I want you to know)

That I miss living, That's cold feeling, Without you in my life that's a slow killing.

But I know better, you deserve better, and through whatever,

Forever I.....

[Chorus]

I love you

If this is the end and we don't talk again let me say

That I love you

Somehow I went wrong, hope you're hearing this song, let me say

That im sorry for not being the man I promised i'd always be

But I love you

And that's just the real, hope you still feel it comming from me.
