

# Tanya Tucker, Rainy Girl

Maybe you wish I was someone else  
I've tried so hard to be myself  
But I can see you need a change  
Some folks get tired of the rain  
Some folks get tired of the rain  
One sunny day you'll change your mind  
And look for clouds but you find  
Your rainy girl won't rain no more  
Some folks get tired of the rain  
Some folks get tired of the rain  
Hope you find those sunny days  
As bright as you thought they would be  
Remember who wanted what a change  
It was you babe, not me  
My love will last forever more  
Just like the rain my love will pour  
And when you go I'll love again  
Some folks don't tire of the rain  
Some folks don't tire of the rain  
Some folks get tired of the rain
