

# Tanya Tucker, Smell The Flowers

Yesterday oh how many do you wish you could relive  
Turn the page and go back oh I wonder what you'd give  
Looking back does it seem when you've planned when you've dreamed  
You forgot the most important thing  
Smell the flowers while the roses bloom take the time my friend and sing a happy tune  
Oh how precious every mile so take a minute learn to smile  
My friend let's stop a while and smell the flowers (smell the flowers)  
[ guitar ]  
Got a troubled mind friend if you let too much worry rule your days  
When you look back do you feel like something precious slipped away  
Oh my friend are you the man that the world slip through his hands  
Can you remember when you smelled the flowers  
Smell the flowers...  
Smell the flowers...
