

# Taproot, Run To

I don't want a hall of fame  
I just want you to know my name  
I can't see just where you are  
But it's alright

Somewhere out there in the night  
Someone's feeling out of sight  
I can't see just where you are  
But it's alright

I can be the one you run to tragedy  
I can be the one to show you destiny  
I can be the rock you're needing  
I can be the crutch to help you be  
Who you want to be

I can't fix a broken frame  
But I can help you all the same  
I can't see just where you are  
But it's alright

Somewhere out there in the night  
Hiding from the will to fight  
I will be your shining star  
And give you light

I can be the one you run to tragedy  
I can be the one to show you destiny  
I can be the rock you're needing  
I can be the crutch to help you be  
Who you want to be

When all is said and done I'm still behind you  
The past is come and gone just move on through  
No matter when it is you come to see  
Who you want to be

I can be the one you run to tragedy  
I can be the one to show you destiny  
I can be the rock you're needing  
I can be the crutch to help you be  
Who you want to be
