

# Tarkan, Come Closer

[Verse 1:]

A wind is blowing and a fire's loose  
I couldn't find the words to call a truce  
And tore the temple down to let the spirit rise..ooo

In the sound of the storm  
I can hear just one voice

[Refrain:]

All over  
Let us all come closer

[Verse 2:]

There is nowhere to touch that doesn't hurt  
There is nowhere that I can't look that isn't blurred  
With all the righteousness and all the holy words...ooo

In the sound of the storm  
I can hear just one voice

[Refrain:]

All over  
When the heart sinks lower  
And the healing slower  
Let us all come over

[Verse 3:]

I need a hand for  
A thread of peace and a seed of hope  
I will raise my eyes to see more  
Speak a truth and we shall know...ooo

In the light of one choice  
We will sing with one voice

[Refrain:]

All over  
When the heart sinks lower  
And the healing slower  
Let us all come over

[Verse 4:]

That is where we are  
That is who we are  
That is all we are
