

# Tarkan, Uzun Ince Bir Yoldayim ( English )

i'm on a long and narrow road  
on my way morning and night  
I don't know what state i'm in  
i'm on my way morning and night

from the moment I came into this world  
began walking at the same time  
in a place with 2 doors  
i'm on my way morning and night

if ever it is thought of in depth  
it'll seem far away when it's seen  
the path is worth one minute in quantity  
im on my way morning and night

Veysel is confused at the state of this....  
some laugh and some cry  
to reach upto the place of object (the goal)  
im on my way morning and night
