

Tarnation, Wait

You wait, but the sun has told you lies,
It sits laughing in an empty sky.
There's one thing that I can't do without,
But I can see through those sullen eyes that have turned away from me.
It's wise to say that I don't care
It's wise to say but I don't mean a word.
I'm only asking why must I pretend to not see
Through those sullen eyes that have turned away from me.
