

# Tarnation, Wait

You wait, but the sun has told you lies,  
It sits laughing in an empty sky.  
There's one thing that I can't do without,  
But I can see through those sullen eyes that have turned away from me.  
It's wise to say that I don't care  
It's wise to say but I don't mean a word.  
I'm only asking why must I pretend to not see  
Through those sullen eyes that have turned away from me.
