

Taskforce, Brothers McBane

(Chester P intro)

Yo, Brothers McBane, New Mic Order containers

Y'unnerstan, founded 1995, Bury Crew, MUD Fam, Taskforce forever

(Chorus, Farma Giles)

Gale force hand glider

Lightning bungee jumps

Thunderstorm messiah

Hailstone toboggan run

Rainfall mountaineer

Blizzard downhill skier

Monsoon mountain biker

Typhoon snow boarder

We do it all this year

A new chapter's born

The Brothers McBane

Are the riders of the storm

(Chester P Hackenbush)

You see these McBane brothers

They'll throw you off a stage

For staging theatrics

We'll call your card by name

Why d'you think we're called the McBanes

Just for name sakes?

The scene will never be the same again

We'll make your brains ache

This boogaloo's good to you

But sometimes it's good to feud

And if your head's bigger than your skills

Sometimes it's good to lose

McBane's ain't the guys to choose

To battle for publicity

Tell your noise to take an interlude

From now until infinity

We love you all spiritually as people (just livin')

But we hate you as emcees

That's why we're fun killing

Those who's unwilling

To master their positions

You'll face the McBanes

And we'll change your conditions

Make sure you see the light

If not, you'll see the end

So keep up with the times

Cos it waits for no men

And if time overlaps you

These brothers will trap you

Cos we stay swinging

Like a cowboy's lasso

You've heard me say the name

McBanes

From deep waters coming at you

To bless you with the new mic order

(Eno Red Rum)

Red Rum composer

Starlight symphony

Battling my enemies

With 25th Century rhyme flows

To blow woah

Soldier task force

Turning red like Soho

So enter to my territory

The terror breeze bringer
Batter ram smasher rap king
It's the slip stream
Spun round by my whirlwind
It's the Brothers McBane
Slay guys like slain
Poetical poison Tube trains
Through your vein
I bring immediate torture
Skid marks on your chestpiece
Force the resistance
Pull your tongue out your cheek
And fill your body with fear
So who's the best this year?
Taskforce, MUD Fam, Bury Crew ya hear!
Eno Red Rum, mad man mania
Failure fixer, pick up your slip ups
Hip hop disc flinger, Dragon stout drinker
Terrorizing mics and R&B singers
Menacing music masked attack on your act,
Collapsed your whole detail
With a anger some track
My lyrics stay with you
It's leaving a stain
Bare faced, no shame
It's the Brothers McBane

(Farma Giles)

My slicing vocals you can't test
Make your face feel wet, put my name under trust
I'm a stainless steel edge Stanley knife, slice rate
Top ten tongue flex, break neck rap speed
The verbal stampeder, hexagon head shape
Now can you catch my angle?
Unicycle turbo, I ride with no handles
A chariot of fire burning through rhyme arenas
Remus wolf ganger, Taskforce hyenas
Lock jaw lion tamer, sentence rearranger
Left you in the 4th bar feeling like a stranger
My forcefields harvest, sky scrapes above novice
Intercepting airlines crash landed in the forest
Power tool hammer head, smithereen finale
This is the resistance Task F-O-R-C-E
Rapper bippin', Robotusin, legalize the crushing
Flower pressing pages engaged in my war games
Crazy crane deliveries, master sun shiner
Shimmers through your forecast in the form of a rhymer
Stay true fanatics at it hard when our disc plays
Bare-faced, no shame, it's the Brothers McBane

(Chorus)

(Chester P Outro)
