

TAT, Bloodstain

1. I left my right foot in your shoe
And my left stuck right in grave
My brain is tellin me to wait
And stop chewing on my leg
You got me wrapped around your finger
Tight like a piece of thread
I feel weak I can't breathe
Yeah I'm loosing streak
You're a choker around my neck.
Ch. Every time I try to get away I can't cos you're stick
Like a bloodstain on my sleeve
Every time I try to leave I can't cos you're stitched
You're stitched to my memory
Yeah, yeah nah nah nah.

2. I tore my pillow up to shreds
The bitch wouldn't listen to how i felt
I watched the feathers dance on air
Laughing freedom in my face
I saw you throw the keys away
The keys to my gilded cage
I strook blind I took a leap
A bit of more than I could take.
Ch. Every time I try to get away I can't cos you're stick
Like a bloodstain on my sleeve
Every time I try to leave I can't cos you're stiched
You're stiched to my memory
Every time I try to breathe I can't cos you're sit
You're sitting on top of me
When it comes to make or brake
You make my blood boil brakes my confidence
Yeah, yeah nah nah nah.

3. Spineless now I'm numb and bored
Go ahead and knock I'm already disturbed
At rings all cut now I'm puppet free
I'm walking away ay ay
We struck an ugly compromise yeah
My life for your life an eye for an eye.
