

# Tate McRae, want that too

I was blindsided  
Couldn't see it coming  
Too young to be treated like that  
You were on something  
Cut me down to nothing  
And your knife's still stuck in my back

Keep saying one day I'll regret it  
But I don't  
Probably thinking one day, I'll forget it  
But I won't

Oh, I gave you everything that I couldn't afford to lose  
Now, I pull myself together  
And you come out of the blue  
Taking all the better parts of me is all you ever do  
Now, the second I find something good  
I know that  
You're gonna want that too  
Hmm-hmm  
You're gonna want that too  
Hmm-hmm

Heard you're throwing shots  
Watch them ricochet  
I got time for everything but your shit today  
I'm not waiting for your call, but I know you will  
That's the only hand left that you got to play

Keep saying one day I'll regret it  
But I don't  
Probably thinking one day, I'll forget it  
But I promise you now I won't

Oh, I gave you everything that I couldn't afford to lose  
Now, I pull myself together  
And you come out of the blue  
Taking all the better parts of me is all you ever do  
Now, the second I found something good  
I know that  
You're gonna want that, too  
Hmm-hmm  
You're gonna want that, too  
Hmm-hmm

No, no, no, no  
Take my innocence for weakness  
Take my money  
I don't need it  
'Cause that's all you ever wanted  
Didn't you?  
Take my youth and fuck me over  
Made me realize now I'm older  
Never wanna be anything like you

Oh, I gave you everything that I couldn't afford to lose  
And I pull myself together  
You come out of the blue  
Taking all the better parts of me is all you ever do  
Now, the second I found something good  
I know that  
You're gonna want that too  
Oh-oh, you're gonna want that too
