

Taxiride, Madrigal

I've been confusing real life with a dream
Dreamin' that some day i'll find all the answers to life
But i don't know where i am

Trip over shadows and dance in the street
Feelin' my way through the memories
I'm keeping my distance
Go where i wanna go

Watching the world go by...

Here i stand
With my head in my hands
Watchin' the world turn around
Watchin' the world turn around
