

# Taxiride, Oh Yeah

take these diamonds and take my mind,  
your gonna pray for a second its you they want,  
lose yourself, lose your mind, let your faith unwind,  
and when you psyche this , women will love their time

(intro in background)

so take me over  
so take me over  
cos im all over you  
so take me over  
let yourself go....

(chorus)

oh yeah  
give me your best your a superstar  
oh yeah  
ill call you when your named that you think you are  
oh yeah  
your eyes can see what they want to see  
oh yeah...

50 lovers and 50 lies,  
the illusion of love cos it fits your lie  
you reject, you connect as it takes control  
but in a love struck culture you lose your soul

take me over  
cos im all over you  
take me over  
let yourself go

oh yeah  
give me your best your a superstar  
oh yeah  
ill call you when your named that you think

you are  
oh yeah  
your eyes can see what they want to see  
oh yeah...

ohhh.. ahh...

you give the hungry love inside..  
we give the hungry love inside me....

oh yeah  
oh yeah..give me the best your a superstar  
cos im all over you  
your eyes can see what they want to see  
take me over ...let yourself go

oh yeah  
give me your best your a superstar  
oh yeah  
ill call you when your named that you think

you are  
oh yeah  
your eyes can see what they want to see  
oh yeah...

ohhh ahhh....

give me your best your a superstar

oh yeah

let yourself go

oh yeah

your eyes can see what they want to see

oh yeah

ohh ahh....
