

Taylor Jones, Rock This Party

I got this feeling in my heart tonight
Were gonna take it to the highest highs
So, if your looking for a place to go
Let me know!
Let?s go!

Were gonna rock this party
Ra-rock this party
Rock this party tonight, yeah!

Pop that bottle
Your looking at the king
And the party now
While the music?s blaring
No caring
Come round if you wanna have fun
And Act little daring
Yeah, yeah
There?s another on my left wing
Yeah, yeah
There?s another on my right side
The floors getting caved in
But we don?t care on the night time
I gave the place status
That girls backsides are outrageous
They say I?m contagious
Order a bottle
I?m so audacious
Call me a party savior
I like girl with bad behavior and there?s plenty around
I?m gonna holla at a girl to keep me up later

I got this feeling in my heart tonight
Were gonna take it to the highest highs
So, if your looking for a place to go
Let me know!
Let?s go!

Were gonna rock this party
Ra-rock this party
Rock this party tonight, yeah!
