

# Taylor Swift, I Heart ?

Wish I had concentrated  
They said love was complicated  
But it's something i just fell into  
And it was overated  
But just look what i created  
I came out alive but i'm black and blue  
But boy you ask me if I'm all right  
Think about what I had to do yeah

Chorus:Wake up smell my break up fix my heart put on my make up  
Another mess i didn't plan  
And i bet you thought you beat me  
Wish you could only see  
I got an I heart ? written on the back of my hand

I'd be fine if you just walked by But you had to talk about why  
You were wrong and i was right  
But i can't believe you made me sit at home cry like a baby wait right by the phone every night  
And now you ask about you and I  
There's no you and I

Remeber what you put me through  
I had to

(Repeat chorus)

And when you're home all alone at night  
You still wonder why  
You took everything i had away but  
I haven't thought about you and I  
There's no you and I  
And I know someday you will

Wake up smell my break up  
Realize that we won't make up  
It didn't go the way you planned  
And You'll know you didn't beat me  
When you look down and see  
I got an I heart ? written on the back of my hand  
Written on the back of my hand  
An i heart ? yeah written on the back of my hand
