

# Tears For Fears, Secret World

This is a garden, this is a steeple  
I hear the crowd before I ever see the people  
Yours for the making, and for the taking  
There is a power in the vacuum we are making

You and I have a secret world  
And we can keep it unfurled  
And pay no attention to the cradle or the grave

And when we're crossed,  
We can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones

You and I have a secret world  
And we can keep it unfurled  
And pay no attention to the cradle or the grave

You and I have a secret world  
And we can keep it unfurled  
And pay no attention to the cradle or the grave

And when we're crossed,  
We can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones

You and I have a secret world  
And we can keep it unfurled  
And pay no attention to the cradle or the grave

And when we're crossed,  
We can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones
