

# Tech N9ne, I Can Feel It

[Verse 1: Agginy]

I missed you so much I followed you to day  
You keep stayin' out all night and that ain't the way  
To keep a happy home so I'm strappin' up with chrome  
Telescopes with binoculours fuck I'm thinkin' bout knockin' ya  
Its apearent I'ma be a single parent  
So I'm hopin' that your snake as ways are not inherin'  
To my baby boy a daddy's little angel  
When I repave the drive way thats where your remains go  
So I can always have you near my dear  
And the foo you fuckin' has no idear  
Your brainiac maniac widower ex-husband to be  
Could buy me a ponto with the insurance policy  
Man sprinkle your teeth on the sea shore  
Axel natural and put up a 50 thousand dollar reward  
Yup diddy-dep few years and hes yours (express sample)  
You motherfuckers don't know who y'all fuckin' with!

[Hook: Big Krizz Kaliko]

Play wit matches you might get a fire  
Play wit emotions theres tears in your eyes  
Playin' with love and fo 'sho you gonna die  
She's so broken I can feel it

[Verse 2: The Philsta]

I can feel it when my man cheats it's a women's intuition  
And when you mess with dogs, dogs go in heat  
Creepin' on different days and different hours of the week  
A beautiful lie that got my heart caught up in heat  
I'm burnin', burnin' for revenge my hands clinched with my emotions  
Is takin' over the physically to hurt you again  
Watchin' your crib watchin' who comes through for you  
Got me runnin' around like a psycho chick two  
I'm seein' if ya lies really adds up to the truth  
I wanna know this girl who shares a special part of you homie  
Hopin' you understand you takin' a chance  
Between love and hate expect the unexpected from the gate  
You made yo bed now lie in it  
Thats the seed that you plant so you reppin' what is naturally god given  
What goes around comes around what can I say  
Cause when the rain come know that I'ma REALA HEY!

[Hook (2x)]

[Verse 3: Tech N9ne]

I'm talkin' about years, years of fidelity  
But what happens when jealousy enters to make her yell at me  
Tempers flair and we foul to be bindin' lookin' for hell and we find it  
Fallin' rapidly no time to be rewind it  
It's a never ending cycle when people choose to be spitefull  
And triflin' loosin' lovin' to a stinch of cheetin' is styflin'  
Life's been excitin' when wifein' 'em  
No more now you fightin' 'em  
Women can be the shit when you wipein' 'em  
Now its rotten relationship trust is forgotten  
And a nigga you found creepin' wit her is softer than cotton  
Cautious she get it popin'  
When the city-to-city hoppin'  
Extra activities stoppin'  
Your bitch can be boppin'  
Some might want to lose it and put a slug in his brain  
One in her's then yourself and you got 3 people slain  
Tecca Nina can't live with the pain  
That's why I say I'ma playa motherfucker and I bet I'll never change!

[Hook (2x)]
