

# Teen Idols, Lovely Day

Alarm clock starts the day  
I rub my eyes and try to delay  
The painful crawl from my bed into the hall

Scratchin' my head  
Eyes are all red  
Feet are like lead  
Like the walking dead  
My hatred is fed as a girl with rosey cheeks just said

Good morning what a lovely day  
The sun is shining down in golden rays  
You're a very special person in your special way  
How nice it's to see you everything's ok

My remote turns off the tube  
I cuss out loud then go to find some food  
Somewhere cheap and fast, just like my life

At the restaurant  
Ask what you want  
They're missing some teeth  
And they're underneath  
The standard of scum but still they bring your food and say

Good morning what a lovely day  
The sun is shining down in golden rays  
You're a very special person in your special way  
How nice it's to see you everything's ok

Get to my job  
Get bullied by slobs  
Take orders from knobs  
Who work for the mob  
While I'm getting robbed I'll force a smile and try to say

Good morning what a lovely day  
The sun is shining down in golden rays  
You're a very special person in your special way  
How nice it's to see you everything's ok
