

# Teena Marie, Sunny Skies

Sunny Skies

It's funny you and I were both so blue

Do you feel the things I do

Sunny Skies-I still can see your eyes

When you said hello I knew all too soon you'd go

When the autumn came you went away

Was our summer love a bit too hot for you to stay

Don't make this last forever-It's raining January

through December

Please don't take away my Sunny Skies

Please don't take away my Sunny Skies

A tear fell from my eyes and since you went away

I've been sad and blue and grey

Sunny Skies-It's really no surprise

That I'm lost alone and I wish you just come home

When the autumn leaves came tumbling down

I looked everywhere and you could not be found

Don't make it last forever-It's raining January

Through December

Please don't take away my Sunny Skies

Please don't take away my Sunny Skies

Would you take the leaves from trees

So that they can't breathe

Would you take the wings from birds

So that they can't fly

Would you tell a secret told in trust

This I know you'd never do this I beg of you

Please don't take away my Sunny Skies

Please don't take away my Sunny Skies
