

# Teenage Fanclub, Alcohololiday

There are things I want to do but I don't know  
If they will be with you, if they will be with you  
There are things I want to say but I don't know  
If they will be to you, if they will be to you  
Listen ever get a feeling when you're taken by the hand  
And led a course you can't command  
Went to bed but I'm not ready  
Baby I've been fucked already  
Falling into line but I'm doing nothing  
We've got nothing worth discussing.  
Went to go but it's all hazy  
People say I'm going crazy.

[Repeat all above]

[Bridge]

All I know is all I know  
What I've done I leave behind and  
I don't know what sort to find me.  
All I know is all I know  
What I've done I leave behind and  
I don't know what sort to find me.  
All I know is all I know  
What I've done I leave behind and  
I don't know what sort to find me.
