## Teenage Fanclub, Straight & Narrow

You were on the straight and narrow You were going round the bend and looking for a friend

Well you took off optimistic but you landed on your head and now you're walking dead

[Chorus]
What did you find
In the maze of your mind
Did it feel like the end of the road

Cigarettes they burnt your fingers you were weak and you were sore but still you had to score

When they found you in the basement you were face down on the floor and you could take no more

[Chorus]
What did you find
in the maze of your mind
did it feel like the end of the road

Didn't need a second warning When you saw the others die you couldn't even cry
