

# Tegan & Sara, Come On Kids

I was so high  
I thought I definitely died  
Cause I was dead already  
Dying  
And endless nights took on my whole life  
Or so I thought  
Turns out that all your friends  
They were just mean  
Dressed up

So, come on kids  
Eat those pills  
You got your whole life to lose  
We've got so many friends  
That wear their feet too big for their shoes  
We've got cities to visit  
We've got trees we've yet to live in  
So get yourself on top of me  
Before I'm gone, gone, gone

I was so young  
I thought that acting old  
Would get me all your love  
Give me all you've got

So come on kids  
Eat those pills  
You've got your whole life to lose  
We've got so many friends  
That wear their feet too big for their shoes  
We've got cities to visit  
We've got trees we've yet to live in  
So get yourself on top of me  
Before I'm gone gone gone

All night long  
On your front lawn  
I'd build you a neon village  
And you said bring on new diseases  
If they're good for you  
Then they'll be good for me  
Yeah, if it's good for you  
Then it's good for me  
If it's good for you  
Then it's good for me

So come on kids eat those pills  
You've got your whole life to lose  
We've got so many friends  
That wear their feet too big for their shoes  
We've got cities to visit  
We've got trees we've yet to live in  
So get yourself on top of me  
Before I'm gone gone gone  
And we've got so many friends  
That wear their feet too big for their shoes  
We've got so many friends  
That wear their feet too big for their shoes
