

# Tegan & Sara, Proud

Freedom and blood  
I make my mark and fight for tomorrow  
Finally I've got something  
Something I can raise my voice for  
Fine tell them who you really want  
Fine well you'll get yours and I'll get mine  
Proud  
I'm proud to be proud to see  
They said proud  
I'm proud to be proud to be me  
They said tell me oh you've got to tell me  
Freedom's rough  
So we take our stand and fight for tomorrow  
Finally we got something  
Something we can bring down the house with  
Fine tell them who you think you are  
Fine tell them fine is what you are  
And when you finally figure out what it is you need  
You better think of me  
No no no no  
When I get up  
I feel the rhythm in my fingers  
I get up - I hear the rhythm in my laughter  
Take a second look  
You might find that I am stronger  
Take a second look  
You might find that you are stronger  
Imagination inspiration  
It's only fair that I tell you  
I plan on leaving here tonight with my pride  
It gets me every time  
With my pride  
I'm proud to be I'm proud to be me
