

Tegan & Sara, Superstar

Dignified in what she does when she sings
The smile that she brings to all of you
Unaware of what's to come
I said "Tell me,
... What's to come ?"
Green is the colour of my envy
It's the colour of fame
So I'm gonna write it down,
Gonna scream it out
And I'm never gonna be the same
Again
(Again)
Fear is the colour you've all exposed
Now I gotta get up here
And prove the importance of my clothes,
Of my pose
I suppose
Again,
Again
Hardcore superstar by far
You're the ultimate star
Hardcore superstar by far
(Do you wanna be a...)
(Hardcore superstar by far)/Do you wanna be a superstar?
(You're the ultimate star)/Whoa, whoa, whoa
(Hardcore superstar by far)/Well, that's what you are
You're gonna be a star
Whoa, whoa, whoa
Do you wanna be a...
Superstar?
Clever in what she does competing for the attention
Of those people that you know
My whole life revolves around your absence
Until I can't remember
What I was, what I am,
What I know or where I go
Every moment was that moment
Every day was that day
Every second was that second
And I've lost myself again
Yes, I've lost myself again
Hardcore superstar by far
You're the ultimate star
Hardcore superstar by far
(Do you wanna be a...)
(Hardcore superstar by far)/Do you wanna be a superstar?
(You're the ultimate star)/Whoa, whoa, whoa
(Hardcore superstar by far)/Well, that's what you are
You're gonna be a star
Whoa, whoa, whoa
Do you wanna be a...
Superstar?
Soon my face will be on every magazine
Then my voice will be on every frequency
Take my heart
While you're at it,
Why don't you sign me up
To sell me out?
Why don't you sign me up to sell me out?
Why don't you sign me up to sell...
(Sign me up and sell me out)
Hardcore superstar by far,
You're the ultimate star
Hardcore superstar by far,

You're the ultimate star
Do you wanna be a superstar?
Do you wanna be a superstar?
I am my angel 'til death I do
I saw my first angel and it was you
I am my angel 'til death I do
I saw my first angel and it was you
I am my angel 'til death I do
Saw my first angel and it was you
What's to come?
What's to come?
It was you, it was you, it was you...
(It was you...)
