

Television Personalities, As John Belushi Said

Once upon a time
I was manically impressed
I spent my days in bed
Medication always fed my head
But now I know
It's going to be one of those days
Sunshine was promised
But here comes the wind and the rain
Against
I spent my days in bed
Medication fed my head
But now I know that I'll get all the sleep I need
When I am dead
As John Belushi said
And I just know
It's going to be one of those nights
The bloke next door plays REM so bloody loud
And I can't stand Michael Stipes

His voice annoys
Spent my days in bed
Medication fed my head
But now I know that I'll get all the sleep I need
When I am dead
As John Belushi said
As John Belushi said
Medication fed my head
Once upon a time
When I was manically impressed
They say I rang my neighbour's bell and poured baked beans over his head
But I just know
It's going to be one of those days
Sunshine was promised
But here comes the wind and the rain
Again
As John Belushi said
