

# Ten Hands, East Coast Jones

(Slavens)

back home it's the same  
things are very slow to change  
by the time the news comes in from L.A.  
the latest fad is already passe (hey, hey)  
the clothes and the music and the latest phrase  
tomorrow has the reek of yesterday  
everybody wants to keep up  
with the east coast Jones  
and the west coast way to play  
back here it's the same  
everything is up to date  
they say  
build it up, buy it up, eat it up fast  
it's made for looks  
but it ain't made to last  
buy a nice house  
buy a nice car  
junior executives  
born to be a star  
if you want to be in fashion  
you'll have to pay  
the east coast Jones  
and the west coast way to play  
out there it's the same  
except there ain't nobody knows your name  
'the grass is always greener on the other side'  
and 'you can run but you can never hide'  
well you see  
all the same rules will still apply  
you'll still get low  
you know you'll still get high  
everybody runs to keep up  
with the east coast Jones  
and the west coast way to play
